

EXOTANIUM

ABOUT US

Exotanium, Inc. is developing new cloud-native application containers that are secure and fast. Containers are revolutionizing development and operations (DevOps) for businesses in the cloud where both security and performance are paramount. Exotanium X-Containers support business needs with strong security, high performance, customizability, and low cost. Exotanium X-Containers also prevent vendor lock-in with portable, hybrid, and multi-cloud orchestration. See our pitch at the [Cornell Entrepreneurship Summit 2018](#).

WHAT IS NEW

- We attended the [NSF SBIR Workshop and Bootcamp](#) in March and gave a presentation on what we learned from more than 30 customer interviews.
 - We presented our X-Containers paper at the [24th ACM International Conference on Architectural Support for Programming Languages and Operating Systems \(ASPLOS\)](#) on April 15. See a two minute intro of the paper [here](#).
 - Cornell Center for Technology Licensing (CTL) officially filed the patent of X-Containers.
 - The [official X-Container website](#) is now online.
 - We are preparing for a seed round of fundraising led by [LaunchNY](#). Contact us if you are interested!
-

OBSTACLES ENCOUNTERED

- We are hiring! But, it has been challenging attracting the top talent with the right experience to upstate New York. We are currently working on recruiting in the local upstate region and beyond. [Check out our job post here](#).
-

PLEASE HELP

- Please introduce us to angel investors who might be interested in joining our seed round with LaunchNY.
- Please introduce us to a customer for a Proof-of-Concept (PoC).
